

U.S. Department of Labor

Mine Safety and Health Administration

MSHA's Small Mine Office—Serving the small mines in America

Week 31

Location: _____ Supervisor: _____

Date: _____ Time: _____ Duration: _____

1) Oxygen – Acetylene Cutting Torches

- Keep your torch in good condition and free of oil and grease
- Repair damaged hoses immediately with correct fittings and crimping tools
- Do not leave your torch unattended

2) Compressed Gases

- Never transport oxygen or acetylene bottles laying on their side
- Firmly secure bottles in an upright position with protective cap in place
- Protect bottles and valves from being struck by foreign objects

2) Eye Protection

- Face shields or goggles must be worn when operating a grinder
- Safety glasses should be worn in all working areas
- Welding shields must be kept clean and free of defects
